

**July 10, 2019:**

**Notice of document relocation for:**

<https://glenwing.github.io/docs/HDMI-Version-Labeling-Rules.pdf>

The **HDMI Version Labeling Rules** document previously hosted here has been removed due to a [DMCA notice](#) filed by HDMI Licensing on May 6, 2019 (apparently they have a policy against using version numbers to describe cables and devices, but they do not want anyone to know about this policy! What innovative enforcement tactics! First, make sure no one knows about the policy, and then... well... I'm not sure how that helps. But surely it must! Somehow... We mere mortals just aren't clever enough to grasp the strategic genius behind HDMI Licensing's master plan to encourage the proper labeling of products.)

An archived version of the document can be accessed here instead:

<https://web.archive.org/web/20180907231417/https://glenwing.github.io/docs/HDMI-Version-Labeling-Rules.pdf>

This notice (that you are reading right now) has been uploaded in place of the previously hosted standards document, with the same name ("HDMI-Version-Labeling Rules.pdf") so that any links to the document posted in the past will see this message and the above link, rather than a frustrating 404 error. Apologies for any inconvenience.
